Bicycle Safety Guide

Bikes at Rice

RIDE RESPONSIBLY

Bicycles provide a convenient, environmentally friendly way to move around the campus. With the increasing number of bicycles and pedestrians, it is important that each rider act responsibly to avoid injury. By keeping in mind some simple rules and courtesies, we can create a safe environment for everyone.

As an extra safety precaution this year, we are encouraging a "Bell or Yell" call presence to pedestrians. Rice bicycle bells will be provided when you register your bicycle.

REGISTER YOUR BICYCLE

Register your bicycle with the Rice University Police Department (RUPD). It is as easy as using "E-Services" to fill out the online form. To **register**, you will need to submit a photo of your bicycle. If your bicycle does not have a serial number, the RUPD will be happy to assist you in obtaining one. Registration helps RUPD return stolen bicycles to their owners and protect your investment.

WATCH FOR PEDESTRIANS

Please yield to pedestrians at all times. Pedestrians generally have the right of way. If you are on a bicycle, you may be liable if you hit someone. (It's a good idea to check your homeowner's policies to make sure you are protected.)

USE YOUR BELL OR YELL

It is important to notify pedestrians that you are approaching on your bicycle. When you are approaching, say "Excuse me," "On your left," or "Behind you," to alert pedestrians as having the right of way. Do not startle pedestrians.

Get a free Rice Bicycle Bell when you **register** your bicycle!

BE COURTEOUS

As you ride through campus, please be aware of your surroundings and be courteous to others using the walkways and streets. Rice University has many visitors on campus, some of whom may not be aware of our campus culture. To avoid accidents, please be aware that some pedestrians and riders may be using headphones or be distracted by other factors. If you use earbphones while biking, please use only one earphone in order to remain alert to pedestrians and vehicles.
